CIVIL ENGINEER 4 - HYDROLOGY

Start at \$888 a month. Earn \$45 raise after six months. Further merit raises to \$1153.

LOCATION: Department of Resource Development, Water Resources Division, Madison. The list established at this time may also be used for similar future vacancies during the life of the list.

DUTIES: Plan and coordinate engineering activities and studies as established by the law relating to flood plain zoning and flood control. Establish work priorities, cooperate with federal agencies in making flood plain studies, and assist local municipalities. Make independent studies and develop acceptable standards. Serve as an expert witness in court tests of the flood plain zoning law. Supervise permanent and assigned staff.

QUALIFICATIONS: Training and experience - Graduation from a college or a university with major courses in civil engineering and four years of responsible engineering experience, two of which must have been in hydrology, one year of which shall have been in a supervisory or consultative capacity, or an equivalent combination of training and experience. Wisconsin residence is not required.

SPECIAL REQUIREMENT: Registration as a professional engineer in the State of Wisconsin or eligibility therefor.

Essential skills and knowledges - Thorough knowledge of the principals and techniques of civil engineering as related to flood studies. Ability to organize and coordinate the work of engineers, planners and other technicians. Ability to perform technical research and make comprehensive recommendations in engineering problems.

APPLICATION: For information write Mr. T. E. Thoresen, Administrative Officer, Department of Resource Development, State Office Building, Madison, 53702. File applications at the Bureau of Personnel, B135 State Office Building, Madison, 53702, by February 15. Applications will be accepted after that date if examination arrangements can still be made.
